TOREON

Pentest Subscription by certified ethical hackers

YOUR COACH IN DIGITAL SECURITY

Consider a Pentest Subscription

Available as of € 6.395 / deliverable

Consistent Reporting Guaranteed

In order to ensure you meet your compliance needs and optimize your costs related to them as well, we offer you a pen-test subscription for 3 or 5 years. As the review reports are delivered following the proven Toreon methodology & framework, your results are easily comparable, year over year.

Creative Approach Included

In order to ensure you meet your compliance needs and optimize your costs related to them as well, we offer you a pen-test subscription for 3 or 5 years. As the review reports are delivered following the proven Toreon methodology & framework, your results are easily comparable, year over year.
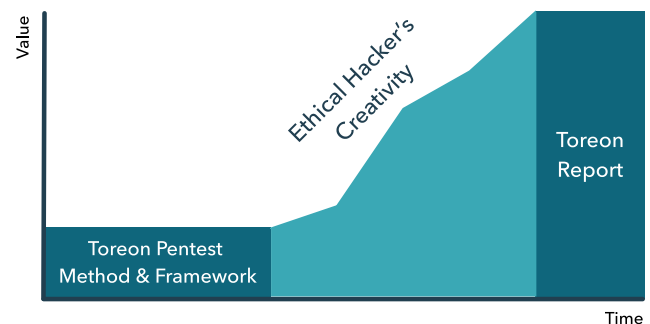

Transparent, predictable budgets

Ad-hoc pricing: € 7.850

3 year subscr.: **Quarterly specific:** € 6.750/yr   **Monthly specific:** € 6.950/yr

5 year subscr.: **Quarterly specific:** € 6.395/yr   **Monthly specific:** € 6.595/yr

We can plan each annual pen-test according to your preferred planning. Allowing us to execute the pen-test in a fixed quarter gives you the best possible pricing. If you want to be a bit more specific and fix it in a certain month, the uplift is minimal.

Optional: Monthly "new-code-challenge"

◆ Each month your new to-be-released code will get challenged and validated
◆ Guaranteed service by an ethical hacker that is not part of the annual rotation

Annual fee: € 15.000

3 year subscr.: € 13.500/yr

5 year subscr.: € 12.000/yr

This brings the following benefits:

◆ Planned long-term, resource & cost optimization possible
◆ Solid framework, offering comparable reporting
◆ Guaranteed rotation of ethical hackers to avoid complacency
◆ Clear fixed pricing for the duration of the contract*

* The annual subscription pricing remains unchanged throughout the lifetime of the contract and is only adjusted by the official index as published annually in January of each calendar year.

Our standard Pentest Offering in a nutshell

Consistent Reporting Guaranteed

Toreon delivers **business-driven cyber consulting** for organizations who demand robust security in today's digital world. Our Penetration Testing Services empower you to uncover and proactively remediate vulnerabilities—protecting your critical assets, reputation, and regulatory standing.

Our Pentest Approach

◆ **Scoping:** Custom-tailored engagement to match your needs.

◆ **Planning & Kick-Off:** Clarify technical/non-technical details, ensure smooth testing.

◆ **Testing & QA:** Simulate real-life attack scenarios—no disruption, maximum coverage, strict quality control by senior experts.

◆ **Reporting & Review:** Deliver actionable insights via clear management summaries and detailed technical chapters; CVSS 4.0 scoring; CWE mapping for recurring issues; direct proof-of-concept for all findings.

Service Portfolio

◆ **Network Penetration Test:** External & internal assessments; Active Directory & Wi-Fi (add-on)

◆ **Web/Mobile App Test:** Frontend, backend, API, session management, root detection, SSL pinning

◆ **API & Thick Client Test:** Design, auth, data leakage, reverse-engineering

◆ **AI Model Test:** Adversarial resilience, data protection, integration security

◆ **Full run-through-time:** 3-4 weeks from start to finish

Quality Assurance

◆ Rigorous test action checklists.

◆ All work reviewed by senior penetration testers.

◆ Top QA specialists with decades of experience in SDLC, AppSec, and secure programming.

◆ Guaranteed high quality and actionable deliverables – every time.

Why Choose Toreon?

◆ **Expert Team:** 10+ consultants with deep technical expertise, hands-on experience, and renowned industry certifications.

◆ **Broad Coverage:** Comprehensive tests for networks, applications, APIs, mobile platforms, thick clients, and even AI models.

◆ **Speed, Quality, Value:** Fixed run-through-times for projects (network, web app, mobile) ensure timely and predictable delivery without sacrificing thoroughness.

◆ **Regulatory Compliance:** Meet standards like GDPR, PCI DSS, and HIPAA; reduce your audit risks and compliance costs.

◆ **Trust & Reputation:** Regular pentests show your commitment to security, enhancing stakeholder confidence.

Securing Organizations	Securing Products	Securing People
